

Our Key Texts **Autumn 1 - Little Explorers**

KS1 Overview

English

This term in English we will be practicing orally forming and then writing our own sentences, that include capital letters and full stops in the correct places. We will be continuing to work on our handwriting. Y1 will be doing pre cursive and Y2 will start to do cursive handwriting. We will be writing an adventure narrative and a recount.

History

Children will learn about the past and how it is different from the present. They will explore timelines to understand the order in which events happened. They will also learn about significant people, events, inventions and discoveries that have helped shape the world we live in today, and consider why some individuals and achievements are remembered as important. We will consider how explorers have changed the world and our view of the world.

Maths

This half term we will be thinking about place value, recapping our knowledge of numbers up to 20. We will also be thinking about 1 more and 1 less than these numbers. We will then move on to addition and subtraction, where we can apply our number knowledge with confidence when solving maths problems.

Design & Technology

Children will explore different types of structures and learn why they are built for specific purposes. They will investigate what makes structures stable and discover how a wide base and added weight can improve strength and balance. Children will design and make their own product for a chosen user, using sketches to develop and share their ideas.

Science

Children will explore a range of everyday materials and investigate how they are used. Through practical investigations, children will discover how some solid materials can change shape when they are stretched, twisted, bent or squashed. They will also learn about the properties of materials and begin to explain why certain materials are suitable for particular uses.

P.E

This half term children will develop their fundamental movement skills through our P.E lessons, looking at finding space, walking, running, jumping and hopping.
