## Newsletter 21<sup>st</sup> June 2024

Jesus said, 'I have come that you may have life in all its fullness'  
(John 10:10)

### **WARNING: Magic Can Be Dangerous!**

We're excited to announce that B. Ware will be visiting on June 26th with **WARNING: Magic Can Be Dangerous!** - her debut children's book.

If parents would like to, they can purchase a copy for their child to bring on the day for the author to sign [linktr.ee/bwareauthor](https://linktr.ee/bwareauthor). B. Ware will also be selling signed copies at the end of the day (cash or card RRP £8.99).

### **Holiday vouchers (GCC Pupil Premium)**

For any parents wishing to update existing applications, please email [childrensfund@gloucestershire.gov.uk](mailto:childrensfund@gloucestershire.gov.uk) before the Summer 2024 holidays, as details are not automatically updated. To find out more about the scheme, parents can visit our [FAQs | Gloucestershire County Council](#)

### **Rounders tournament**

Great fun was had at the tournament – although we didn't win, we made huge progress and improved each match. A beautiful location for this fun activity. Thank you to all the parents who helped with logistics and support!

### **Attendance**

Please check the NHS guide "Is my child too ill for school" if you are unsure of the best options for your child:

<https://www.nhs.uk/live-well/is-my-child-too-ill-for-school/>

## Should I keep my child off school?

### Yes

|                                                | Until...                                                                                                                                     |
|------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Chickenpox                                     | at least 5 days from the onset of the rash and until all blisters have crusted over                                                          |
| Diarrhoea and Vomiting                         | 48 hours after their last episode                                                                                                            |
| Cold and Flu-like illness (including COVID-19) | they no longer have a high temperature and feel well enough to attend. Follow the national guidance if they've tested positive for COVID-19. |
| Impetigo                                       | their sores have crusted and healed, or 48 hours after they started antibiotics                                                              |
| Measles                                        | 4 days after the rash first appeared                                                                                                         |
| Mumps                                          | 5 days after the swelling started                                                                                                            |
| Scabies                                        | they've had their first treatment                                                                                                            |
| Scarlet Fever                                  | 24 hours after they started taking antibiotics                                                                                               |
| Whooping Cough                                 | 48 hours after they started taking antibiotics                                                                                               |

### No

but make sure you let their school or nursery know about...

|                      |                 |
|----------------------|-----------------|
| Hand, foot and mouth | Glandular fever |
| Head lice            | Tonsillitis     |
| Threadworms          | Slapped cheek   |
